**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
4. Group I, claim(s) 1-2, drawn to a system for connecting client devices using minimum bandwidth, classified in class 709, subclass 203
5. Group II, claim(s) 3-24, drawn to a product suitable for switching messages between two communication links, classified in class 710, subclass 31.
6. Group III, claim(s) 26-30, and 31-32, drawn to a system for clock control of component or data transmission, classified in class 713, subclass 600.
7. Group IV, claim(s) 33-36, drawn to a system for encrypting signals, classified in class 713, subclass 153.

Art Unit: 2142

8. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as connecting client devices to a server and using a minimum bandwidth. See MPEP § 806.05(d).

9. Inventions III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention IV has separate utility such as using encryption to ensure secure transmission of financial data. See MPEP § 806.05(d).

10. Because these inventions are distinct for the reasons given about and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

11. A telephone call was made to Robert Sundheim on 10/14/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cheryl M. Reid whose telephone number is 703 305-
